

PROJECT LEARNING TREE and the U.S. FISH & WILDLIFE SERVICE are teaming up! JOIN US FOR AN ENGAGING WORKSHOP!!!

All Children Learn Outside!!

Project Learning Tree is the tool and your schoolyard is the place!!

Come participate in hands-on activities to involve students in creating wildlife habitat in your schoolyard and to learn how to use PLT activities in a schoolyard to inspire place based learning and stewardship.

WHEN: Tues. June 21st & Wed. June 22nd, 2016
9am - 3:30pm

WHERE: Soil Born Farms, Rancho Cordova, CA

COST: \$20.00

INCLUDED: Farm Fresh Lunch, snacks, PLT curriculum, Schoolyard Habitat Guide & material giveaways

Participants in this workshop will:

- Receive the **PLT PreK-8 Curriculum guide** containing more than 100 activities and ideas for fully integrated and aligned lesson plans supporting CCSS, NGSS, and the EEI Environmental Principles and Concepts.
- Be introduced to the **U.S. Fish and Wildlife Service's Schoolyard Habitat Program** and receive their step by step guide to creating successful schoolyard habitat projects.
- Become eligible for **PLT GreenSchools! and GreenWorks! Grants**, and **USFWS funding opportunities** through the Schoolyard Habitat Program for your uniquely designed schoolyard project.
- Receive **certification as a PLT Educator** and **gain access to online resources and tools**.
- Be included in CA PLT Network for additional EE opportunities and **continued Professional Development**.
- Enjoy two days at beautiful **Soil Born Farms** exploring their youth garden, native plant garden, and American River watershed habitat garden.

Registration Open Through June 10, 2016: http://ucanr.edu/2016june_soilbornfarmsswkshopreg
